

Job Title: Process Engineer

Overview:

Crowley Carbon, a rapidly growing energy services firm, is seeking a highly motivated candidate to work in our headquarters in Powerscourt House, Enniskerry. This is a very unique opportunity for anyone looking to enter into or further their career in the rapidly growing energy services field.

This person will have the opportunity to work at the forefront of the energy efficiency implementations under our energy performance contracts.

Responsibilities

- Develop, configure and optimize industrial processes from inception through to start up and certification
- Assess processes, take measurements and interpret data
- Design, run, test and upgrade systems and processes
- Develop best practices, routines and innovative solutions to improve production rates and quality of output
- Perform process simulations
- Manage cost and time constraints
- Perform risk assessments
- Provide process documentation and operating instructions

Requirements

- Proven work experience in process engineering
- Excellent technical skills
- Knowledge of process related standards
- Experience in process simulations
- Working knowledge of process engineering software packages
- CAD or AutoCad skills
- Familiarity with health and safety regulations
- Analytical thinker with interpersonal skills
- BS degree in Engineering
